Project Status: H1 Delivery Burndown

Board: ENG-CORE · Sprints 1–13 · Estimation: Story Points

Copyright Dobromir Montauk 2026

Key Responsibilities: Summary

1. Winning

1. Ensure alignment of deliverables with key stakeholder objectives
2. Right-size scope to optimize time-to-value
3. Conduct proactive risk assessment and discovery
4. Drive timely decision-making across workstreams
5. Optimize resource allocation against priority initiatives
6. Monitor execution and course-correct as needed
7. Remove impediments and mitigate external dependencies
8. Foster team engagement and ownership of outcomes
9. Mobilize cross-functional resources for critical milestones
10. Contribute directly to delivery as bandwidth permits

2. Increasing the Capacity to Win

1. Execute on headcount plan to address capability gaps
2. Invest in talent development and career pathing
3. Empower leads through structured delegation frameworks
4. Implement competitive total rewards and recognition programs
5. Proactively manage underperformance
6. Optimize organizational design and operating model
7. Leverage automation to drive operational efficiencies
8. Champion a culture aligned with company values
9. Build strategic cross-functional partnerships
10. Secure budget and resourcing in line with business case
